

Evaluation Kits EVA 100 and EVA 105

EVA 100 and EVA 105 are evaluation kits to support the development of applications based on EnOcean technology.

The kit contains 2 EnOcean self-powered transmitters; one PTM 200 wireless push-button switch module and the STM 100 solar powered sensor module, and two receiver modules enabling easy set-up, operation & evaluation of the revolutionary EnOcean Energy Harvesting solutions.

Kit Content and Ordering Codes

Type	Content & Description	Ordering Code
EVA 10x	<ul style="list-style-type: none"> • Evaluation board EVA 110 • Short User Instruction "Get Started" • CD with RS232 PC-link monitor software and detailed kit documentation • EnOcean radio transmitter devices STM 100 with solar Cell and PTM 200 module with test rocker, • EnOcean receiver modules RCM 110 and RCM 120 • Wall power supply • Convenient equipment case 	
EVA 100	EU version (230V/50Hz wall power supply)	H3004-G100
EVA 105	US version (120V/60Hz wall power supply)	H3004-G105

The EnOcean 868 MHz radio modules are CE certified and conform to the R&TTE EU-Directive on radio equipment. The EnOcean 868 MHz radio technology can be approved for operating in the USA and in Canada. The EVA evaluation kit is for laboratory use only!
